➤ BRIGHT FUTURE IN AUTOMOTIVE ELECTRONIC

In this technological period every auto is upgraded to be more digitalized with increased use of electronic corridor like ECM, BCM, EPS, ABS, SRS, IMMOBILIZER etc. Indeed the expert auto mechanics are finding it tough to match up with these changes and fix the problems related to auto electronics by themselves due to inadequate information and training on the new digital and electronic factors of an auto. There are temporary results available in request to get it done through other service provider, but we understand that for auto specialists it leads to the waste of time and income. These changes and upgrades are good for the machine assiduity and will keep on going in the coming times. The stylish way is to catch this train of technology rather of limiting the business and recreating loss. And the good news is that we at PURNIMA METER Surat, have come up with unique, short term and practical-acquainted Automotive electronic training for all our auto mechanics to make sure they singly can diagnose and fix the electronic problems. Our charge is to upgrade the knowledge and chops of auto mechanics to meet up moment's auto conditions.

➤ AUTOMOTIVE ELECTRONICS TRAINING
